

The Comatra TP2AGRIC real time TPMS

Featuring the unique inside the rim fitted low pressure sensors!

TRACTOR AND TOWED EQUIPMENT TIRES:

Road transportation is the most extreme application for any agricultural tire ! Especially heat and hard road surface are a tire's worst enemy !

Recommended pressures not only depend on tire loads per axle but do also depend on the tire's maximum speed.

Road Transportation: The most *extreme* application for any AG Tire!

4-10 Tires

PSI - KPA - BAR
°C and °F

REALTIME TIRE MONITORING:

Pressure range : 0.4 bar ~ 7.0 bar / 5.8 psi ~ 101 psi.

Audiovisual warnings :

- in case of low or high pressure, leaks, pressure drops.
- in case of tire overheating : + 80°C / 176°F.

Improves steering and braking control.

Enhanced cornering stability.

An efficient step forward to drastically reduce tire blowout risks.

*Solely designed for AG wheels, fits the ETRTO
V5.01.1 - TR618A rim hole perfectly.*
